

PENGURUSAN AIR SELANGOR SDN. BHD. (201401006213)

SCOPE OF WORK:

**ANNUAL SUBSCRIPTION FOR AIR SELANGOR OUTSYSTEMS
CLOUD PLATFORM FOR YEAR 2025/2026**

Version 1.0

1. INTRODUCTION

The Employer, Pengurusan Air Selangor Sdn. Bhd. (Air Selangor) has undertaken an initiative to implement a new Electronic System for Processing of New Water Supply Plan Version 3 (eDPLAS Version 3) to replace the existing electronic development plan approval system (eDPLAS). Towards the implementation of the new eDPLAS Version 3, Air Selangor require a rapid system framework or platform to accelerate the development phase. Hence, it is proposed to use low code platform - **OutSystems**.

OutSystems is a low code platform, providing the tools that allow organization to develop, deploy and manage responsive application in a rapid or quick and efficient approach. OutSystems combines the minimal coding with advance mobile capabilities and enabling visual development of entire application that make it easy to integrate with existing systems.

2. PROJECT DEFINITION AND OBJECTIVES

Pengurusan Air Selangor Sdn. Bhd. (Air Selangor) has embarked On Outsystems Low Code Platform as its Application Development platform. eDPLAS v3 is the first deployed system under this platform. It has gone live for Phase 1 on **25th October 2021** and 2nd Phase on **30th July 2022**.

Outsystems license subscription will be ended on **27 July 2025**. Based on standard practice in system development, it is normal to engage the same platform provider to ensure that we can continue using the platform. Therefore, Information Technology Department (ITD) has acquired one-year subscription for Outsystems Platform from **28 July 2024 to 27 July 2025**.

3. SCOPE OF WORKS

The main Scope of Works (SOW) for this subscription are as the following table:
